YOUR SPARE PARTS CONTACTS

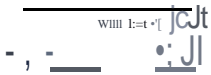

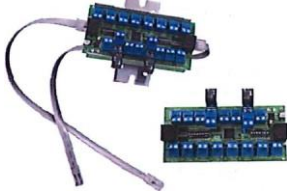

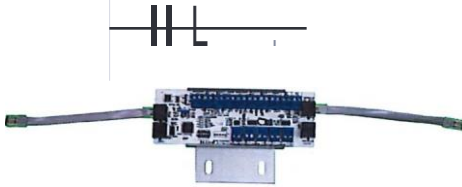

For Orders: www.ahs.co.nz

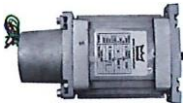

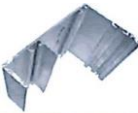

TERMS AND CONDITIONS

1. This Agreement including the terms and conditions contains the complete and final agreement between dormakaba NZ Ltd herein known as the "SELLER" and the endorsed Purchaser, herein known as the "BUYER". No other agreement in any way modifying any of the said terms and conditions will be binding upon the SELLER unless made in writing and signed by the SELLER'S authorised representative.
2. **title Risk.** All goods delivered by the SELLER shall remain the property of the SELLER until payment has been made in full by the BUYER but shall nevertheless be at the risk of the BUYER upon delivery to a carrier or onto the BUYER'S transport and the BUYER shall indemnify the SELLER in respect of any loss or any damage sustained thereafter.
3. **Delivery.** (a) The SELLER shall endeavour to deliver the items included in each order on the promised date, however no liability shall result from delay, prevention or non performance where caused by or arising out of strikes, industrial disputes, labour shortages, lockouts, breakdown or damage of property or plant, accident fire storm or any other act of God, requirement of the Government or any instrumentality created thereby, transport difficulties, embargoes, late delivery, shortage of or inferior quality materials or any other cause which is beyond the control of the SELLER. The BUYER shall be bound to accept and pay for any goods delivered late and the SELLER may, in any circumstances, deliver in one or more lots and at different times and by different shipments.
(b) Delivery of all goods shall be made at the customer's expense and will be delivered to the customer on a free on board basis unless otherwise agreed.
4. **Price variation.** If there shall be any increase in the cost of materials or labour used in the manufacture, preparation, construction or delivery of the goods between the date of the order and the date that the goods are delivered, the price quoted in the order shall be increased accordingly. The SELLER reserves the right to increase the price quoted without notice and/or if notification is given the BUYER has the right to pay the increased price or opt out of the Contract by giving written notice to the SELLER within seven days after notification and to pay for any materials ordered and goods manufactured to date of the SELLER'S receipt of the BUYER'S notice to opt out of the Contract.
5. **Terms of payment.** Payment is to be made net 30 days, that is within 30 days from the end of the month when delivery took place.
6. **Price list.** The publication of a price list does not in any way restrict our right to decline orders at any time. Prices quoted are subject to withdrawal or revision at any time. All prices shown on the price lists or quotations are in New Zealand Dollars. Prices quoted do not include any charges for delivery, insurance, packaging, imposts or charges of whatsoever nature that may be imposed by any government or instrumentality thereof which shall be extra and additional to the price quoted.
7. **Governing law.** This Contract shall be construed and interpreted according to the laws of New Zealand.
8. **Arbitration.** In the event of any dispute arising hereunder the matter shall be referred to a sole arbitrator whose decision shall be final. Such Arbitrator shall be the president of The Institute of Chartered Accountants of New Zealand or his nominee who shall have at least ten years in practice and such arbitration shall be held at such place or places as the Arbitrator shall appoint. An arbitration shall be a reference under the laws for the time being in force and relative to such procedure.
9. **Fair Trading Act.** The express warranty set forth in these terms and conditions is in lieu of all other warranties expressed or implied (save and except warranties implied by a virtue of Fair Trading Act 1986 (as amended) insofar as any Contract for the supply of goods hereunder may fall within the definition of consumer transaction under that Act).
10. **Limitations of claims.** The sole and exclusive remedies for breach of any and all warranties and the sole remedies for the SELLER'S liability of any kind (including liability for negligence) with respect to any goods supplied hereunder and all other performances if any by the SELLER under or pursuant to the Contract shall be the repair or replacement of the defective item at no charge to the BUYER except for labour costs for repairs or removal of the defective item and installation of a new replacement unit and transportation charges for delivery of the replacement and return of the defective item.
11. **Product liability.** The SELLER shall not be liable to an extent greater than the maximum quoted value of the goods sold and there shall be no liability whatsoever for any consequential or incidental damages howsoever arising.
12. **Liability to third parties.** The SELLER assumes all risk and liability for loss, damage or injury to the person or property of the SELLER or others arising out of the use and/or possession of any of the products or goods sold thereunder.
13. **Modifications.** This order including the terms and conditions on the face and reverse side hereof contains the complete and final agreement between the SELLER and BUYER and no agreement or other understanding in any way purporting to modify the terms and conditions thereon shall be binding upon the SELLER unless ordered in writing and signed by the SELLER. Should there be any conflict between these conditions and any further terms or conditions put forward by the BUYER these conditions shall prevail but the BUYER may give written notice of two days of receipt of this document that he refuses to be bound by these conditions in which case the SELLER may rescind the Contract.
14. **Defects.** The BUYER shall be deemed to have inspected and accepted the goods as delivered and as having acknowledged that they have been received in proper and good condition unless the SELLER receives within seven days of the receipt of the goods by the BUYER a written notification of any claim.
15. **Cancellations.** Should the order be cancelled and/or suspended at any time before the delivery of the full quantity the BUYER agrees to accept delivery of the finished goods received by the SELLER and/or in transit and in addition agrees to pay upon presentation of the SELLER'S invoice the cost of any partly manufactured goods produced against the BUYER'S order and the unrecovered amount for the cost of tools involved. The BUYER shall also pay the value of extras as represented by the difference between the price of the original quantity and the price basis on the lesser quantities delivered.
16. **Access.** Where the SELLER is required to perform work on or deliver goods to the BUYER'S premises or premises specified by the BUYER, the SELLER shall be given uninterrupted access and reasonable facilities during normal working hours for performance of the Contract, and the BUYER shall accept the delivery of, unload, provide suitable protection for and keep secure all goods delivered from time to time.
17. **Reports.** The SELLER accepts no liability in respect of any report, recommendation or scheme submitted to the BUYER where no specific charge is made for such reports, recommendations or schemes. Where such charge is made, the SELLER'S liability shall be limited as provided in these terms and conditions.
18. **Quotation.** All prices quoted will remain valid for a period of fourteen days from the date of the quotation and any order placed within the SELLER'S based on a quotation must be received by the SELLER within the fourteen day period. Should an order be received outside the fourteen day period then the SELLER has the right to vary the price quoted.
19. **Assignment.** The SELLER reserves the right to assign or transfer any part of this Contract to any other person, firm, company or corporation and the SELLER further reserves the right to sub-contract the manufacture and/or supply for any parts of the goods quoted for any material or services to be supplied.
20. **Tools and Equipment.** All tools and equipment, dies and other machinery used in the manufacture of the BUYER'S order shall be, and shall remain, the property of the SELLER unless otherwise agreed to in writing and signed by the SELLER'S authorised representatives.
