## **JAECO 2017 PRODUCT CATALOGUE**

[WWW.JAECO.CO.NZ](http://WWW.JAECO.CO.NZ)

## ABOUT US

Jaeco is a New Zealand owned and operated Family business specialising in window hardware for wooden joinery. We also offer a wide range of bathroom accessories and disability support products. Here at Jaeco we take great pride in our ability to back up our quality product range, with knowledgeable and friendly support, along with workmanship and defect guarantees.

Our motto: *'Good service is good business.'*

### **Hardware**

Along with the knowledge and support we provide within our field, the team at Jaeco can also provide advice for any hardware related project or product you may have - if we don't have it, we probably know someone who does and can point you in the right direction. If that doesn't suit, we can probably make it or have it made by one of our local manufacturers or international suppliers. For products that aren't ours, we can tell you who to go to to find what you need.

Got some old window hardware that you love but needs freshening up? Bring it in to us and we can re-finish it for you to whatever colour/finish you want.

### **Disability Support**

For the last 12 years or so, Jaeco has been a steady supplier of disability support products such as Grab Rails, Shower Seats, Slide Rails and the like. We have a very proficient NZ manufacturer who helps us create custom size Grab Rails and support bars for some of

our most discerning clients. We customize length, grip, size, finish & shape to meet the needs of the space. If you need a grab rail that you don't see on our website or in our brochure, please give us the opportunity to price it for you and work with you to get something that is cost effective and meets your needs in terms of safety and looks. We also have a range of imported grab rails that exceed all NZ standards 4121 2001 with smooth lines and rounded flanges and are very high quality. Ask to view our range today!

### **Bathroom**

Jaeco has been in the bathroom accessories game since the early 1970's. This can be seen in a number of homes with apricot and off white bathroom ware around NZ. This industry has come a long way since the days of Nordic, Espana, York Manor and Villa bathroom ranges, now with more Satin and Polished Chrome finishes being the norm. We have 6 bathroom ranges from budget spec to high quality Solid Brass and 304 Stainless products.
