GAIT[®]

Pioneering the delivery of a consistent supply of quality products together with our commitment to expert knowledge and service.

Founded in 1989 and still run today by the Given family, Gait Trading has decades of specialised industry knowledge together with an unwavering commitment to outstanding customer service.

Offering a comprehensive range of residential and commercial door hardware and locksmithing supplies, we are continually expanding our range to meet the needs of the building and locksmith industries. By not selling directly to the end user, we maintain our focus on and commitment to the success of our retailers throughout New Zealand.

Proudly New Zealand owned and operated, you can rely on us to deliver reliable, quality products and service.

Finishes

AB

Antique Brass

Our antique brass is raw brass which has been chemically darkened to simulate aged brass and lacquer coated to prevent tarnishing over time. Natural variation in the brown hues is apparent.

PB

Polished Brass

Our polished brass finish is raw brass that is polished, and lacquer coated to avoid tarnishing.

Powder Coated Colours

Our powder coated colour finishes are applied as a free-flowing, dry powder that is then cured under heat to create a hard finish that is tougher than conventional paint.

RCI

Raw Cast Iron

Our raw cast iron finish is iron that has been melted and moulded into shape and cooled.

SC

Satin Chrome

The satin chrome finish is a durable, dull grey/blue finish that is produced by electroplating a thin layer of chromium onto brushed metal for a satin/matt effect. The brushed effect does not readily show fingerprints.

SN

Satin Nickel

Our satin nickel finish is nickel electroplated onto metal that has been brushed and is then lacquer coated for added protection. Satin Nickel is sometimes referred to as brushed nickel. It is similar in appearance to brushed stainless steel or brushed aluminium. The brushed effect does not readily show fingerprints.

SA

Silver Anodised

Our silver anodized finish increases the thickness of the natural oxide layer on the surface of the metal to reduce corrosion and improve wear resistance, while adding the silver colour.

SS

Stainless Steel

Our satin stainless steel alloy extends a durable, mildly brushed finish that offers superb corrosion resistance.

Care & Maintenance

Stainless Steel

To maintain the longevity and appearance of our stainless steel finish, we recommend routine cleaning using soap, warm water and a dust and grit free cloth. In coastal environments regular cleaning is recommended.

Do not use cleaners with bleach, abrasives or vinegar. Never use any type of abrasive pad or sponge.

Antique and Polished Brass – Living Finishes

A clear protective lacquer coat has been applied to these finishes which increases the durability of the finish. The underlying brass is however susceptible to tarnishing when the coating is damaged, and the brass is exposed to atmospheric conditions. This damage can happen when using caustic cleaning products and also from scratches to the surface. Regular cleaning with soap and warm water is recommended as well as polishing periodically with a wax polish, especially if the finish is exposed to high use or exterior weather conditions.

Satin Chrome and Satin Nickel

To retain the satin finish, these plated finishes should be regularly cleaned using mild, soapy water and a non-abrasive cloth. To clean, polish and protect the finish further, especially in coastal environments, a metal polish can be applied according to the manufacturer's directions.

Powder Coated Colours

Routine cleaning using soap, warm water and a dust and grit free cloth is recommended. In coastal environments regular cleaning is recommended. Polishing periodically with a wax polish, especially if the finish is exposed to high use or exterior weather conditions, is recommended.

Digital Manual Drive Deadbolts

Due to the electronic components of this lock, it is important to ensure that these deadbolts are used in locations where they have protection from moisture, especially rain. Most external doors have a roof overhang of some kind which would provide enough protection.

WARRANTY INFORMATION:

MATERIAL AND WORKMANSHIP:

Gait Trading (the 'Company') warrants its products to be free from defects in material and workmanship for the periods stated below, from the date of purchase. The company will, at its option, repair or replace any products which within the opinion of the company are found to be defective.

1. **B2/AS1 Compliance, New Zealand Building Code Durability Clause B2.**
All Gait Trading products come with warranties that meet the stipulated New Zealand Building Code compliance.
2. **Gait Trading Products warranty on material and workmanship;**
 - a. 10 Years on all compete products
 - b. 5 Years on all accessories
3. **EZSET Brand Products;**
 - a. 25 Year mechanical warranty on material and workmanship excluding electronic components
 - b. 12 Month electronic component warranty on material and workmanship

FINISH:

4. The Company warrants that, subject to the exclusions and limitations below, the finish on its products will be free from surface and colouration defects for a period of 5 years from the date of purchase, excluding:
 - a. Exclusions and limitations: As different finishes have varied and unique properties that may affect the suitability and durability of a finish, the warranty period for Powder Coated, Electroplated and Living Finishes (Brass) will be limited to 1 year. This excludes EZSET Brass Products which carry a 5 year warranty.

CONDITIONS AND EXCLUSIONS:

5. Proof of purchase must be submitted with all warranty claims;
6. No installation or call out fees will be paid;
7. The warranty shall not cover any defect or damage which may be caused or partly caused by or arise through:
 - a. Failure on the part of the Buyer to properly install or maintain any Goods; or
 - b. Failure on the part of the Buyer to follow any instructions or guidelines provided by the Seller; or
 - c. Fair wear and tear,
 - d. or any accident, or
 - e. If the Goods are repaired, altered or overhauled without the Seller's consent.
8. In respect of all claims, the Seller shall not be liable to compensate the Buyer for any delay in either replacing or repairing the Goods or in properly assessing the Buyer's claim.
9. No other warranties, express or implied, are made with respect to the products or services including, but not limited to, any implied warranty of merchantability or fitness for a particular purpose. This warranty does not exclude, restrict or modify any statutory rights. Gait Trading shall in no event be liable for any incidental or consequential damages for breach of any warranty.
